

REMARKS

Claims 2 and 5-46 are pending. Claims 2 and 27 are in independent form. Claim 3 has been cancelled. Independent claims 2 and 27 have been amended to more distinctly claim Applicants' invention. As presently amended, Claims 2 and 27 disclose a KVM system for improved video digitization and image correction utilizing a LCD controller originally designed for controlling an LCD display. Additionally, as amended the claims require that the non video control signals *i.e.*, keyboard and cursor control device control signals, pass through the LCD controller with out being processed. Support for this amendment can be found at least at pages 52 and 53 of the present specification. Neither Comstock or Chiang disclose such a system

In view of the foregoing amendments and remarks, Applicant respectfully requests favorable reconsideration and allowance of the present application. If, however, there are any unresolved issues, it is requested that the Examiner contact Applicants' representative via telephone so that such issues can be quickly resolved.

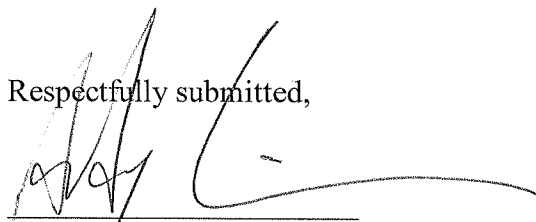

Correspondence and Fees

No additional fees are believed to be necessitated by the instant response. However, should this be in error, authorization is hereby given to charge Deposit Account no. 03-3839 for any underpayment, or to credit any overpayments.

Please address all correspondence to the correspondent address for **Customer No.**
